WELCOMING MESSAGE

Dear Colleagues,

It is with great honor and privilege that we welcome you to the 17th Indonesian Society of Interventional Cardiology Annual Meeting (ISICAM 2025). This year, we proudly embrace the theme "Back to Fundamentals," emphasizing the importance of returning to the essential principles of interventional cardiology while integrating innovation and advanced technologies that continue to shape the future of cardiovascular care.

ISICAM 2025 brings together a distinguished group of national and international experts to share knowledge and experience through a comprehensive scientific program featuring live case transmissions, workshops, and special sessions. These sessions highlight the latest developments and evidence-based practices, reaffirming our shared commitment to advancing patient care through precision, collaboration, and innovation.

We are also particularly excited to present the second PCR Fellows Course at ISICAM, in cooperation with Europa Group, a unique educational platform aimed at fostering the next generation of interventional cardiologists, both locally and within the region. Furthermore, ISICAM 2025 is deeply honored to host the O.J. Rachman Memorial Lecture, which this year will be delivered by the esteemed Prof. Ganesja Mulia Harimurti, paying tribute to the late Dr. Otte J. Rachman, one of Indonesia's pioneering figures in interventional cardiology.

Your presence and participation reflect the continuous growth of interventional cardiology in Indonesia and beyond. On behalf of the Organizing and Scientific Committees, we extend our heartfelt gratitude to all esteemed faculty, participants, and partners for their invaluable contributions to ISICAM 2025.

We hope this meeting will be both inspiring and enriching – a meaningful platform to exchange ideas, strengthen collaboration, and advance our shared mission of excellence in cardiovascular care.

Warm regards,
Dasdo Antonius Sinaga, MD
